EXPERIENCE

Lead Developer – La French Tech Toronto Toronto, Canada December 2023 – Present

I developed a modern, highly functional website for La French Tech Toronto, serving over 1400 members. The site features user-friendly interfaces, robust SEO strategies, interactive tools for member engagement, and integrated membership management systems. Close collaboration with stakeholders ensured their needs were met, and I provide ongoing maintenance to keep the site up-to-date and responsive to evolving requirements.

Full Stack Developer – Informatics for Bio-Companies Grasse, France September 2022 – October 2023

At IBC, a leading bioinformatics startup, I led the creation of customized websites using advanced technologies like ReactJS and TypeScript. I developed scalable web applications serving thousands of users and collaborated closely with cross-functional teams to integrate design elements and enhance user experience. Implementing agile methodologies, I efficiently managed project timelines, conducted user testing, and analyzed feedback to improve website performance and usability. I provided thorough training and documentation for internal stakeholders and played a key role in launching IBC's Flagship Project, using the agile Scrum framework to ensure effective communication and alignment with project goals.

Full Stack Developer – SMSFactor Saint-Laurent du var, France September 2018 – October 2021

At SMSFactor, a French digital communication and marketing firm specializing in SMS services, I optimized features for over 2000 clients through collaboration with sales and marketing teams. I led the integration of HubSpot with our internal website and client base, streamlining processes and enhancing customer relationship management. My core responsibilities included improving functionality and user experience to align with strategic business objectives. Utilizing PHP with the Laravel framework, I contributed to the continuous improvement of our services. Additionally, I undertook an intern project using GO lang, creating innovative solutions and expanding my technical expertise, contributing to the company's growth.
